Total points 22/22 ?

IFT Quick Test (20 Marks)

0 of 0 points

Name *

Dada Vincent Ademola

Department *

Computer Science

Matric Number *

LCU/UG/24/30774

Untitled Section

22 of 22 points

✓ Which processing model collects data over a period and processes it as a *2/2 group?

- ☐ Stream Processing
- ☐ Real-time Processing
- ☒ Batch Processing
- ☐ Event-driven Processing

✓ Apache Kafka is best described as a: *

2/2

- ☐ Machine Learning Library
- ☐ Relational Database System
- ☒ Distributed event-streaming platform

✓ Which of the following is a key advantage of real-time stream processing over batch processing? *2/2

- ☒ immediate, low-latency insights
- ☐ Simpler Implementation
- ☐ Higher Storage Efficiency
- ☐ Lower computational cost

✓ Apache Flume is primarily designed to: *

2/2

- ☒ Collect and move log data into HDFS
- ☐ Visualiza streaming data
- ☐ Train machine learning models

✓ Spark MLlib is: *

2/2

- ☒ Apache Spark's scalable machine learning library
- ☐ A NoSQL database driver
- ☐ A cloud storage service

✓

✓ Why is machine learning particularly challenging with Big Data? *

2/2

- ☐ Big Data cannot store numerical values
- ☒ Traditional ML algorithms don't scale to massive distributed datasets
- ☐ Big Data only works with SQL database

✓

*2/2

Which Python library is most commonly used for creating static, 2D charts and plots in data science?

- ☐ TensorFlow
- ☒ Matplotlib
- ☐ pymongo
- ☐ Apache Kafka

Seaborn is built on top of which library? *

2/2

- ☐ Plotly
- ☐ Tableau
- ☒ Matplotlib
- ☐ D3.js

✓ Which of the following is NOT one of the three major cloud providers for Big Data? *2/2

- ☒ Apache Hadoop
- ☐ Amazon Web Services (AWS)
- ☐ Google Cloud Platform
- ☐ Microsoft Azure

✓ What is the primary benefit of running Big Data workloads in the cloud compared to on-premise infrastructure? *2/2

- ☐ No need for any data engineers
- ☒ Elastic scalability — scale resources up or down on demand
- ☐ Lower data accuracy
- ☐ Faster hard drives

✓ Which cost model is most commonly associated with cloud Big Data services? *2/2

- ☐ One-time hardware purchase
- ☐ Free for all users
- ☐ Fixed annual licence fee
- ☒ Pay-as-you-go (usage-based pricing)

Course Review

0 of 0 points

Give a feedback on the course *

It's one of the courses I feel like It's necessary for computer science students to do, It has really increased my knowledge, thank you
